

SALLY HARVEY (VIC)

I am not one for preamble. Or spin. If any member wants a better picture of the type of person that I am and the ethical values that are the cornerstone of my life, look at my Facebook page, or if you are not technically minded, like me, ask your son, daughter or grandchild to find it for you. Sally Harvey, Sa'Vey Arabians.

I see the need for change to a culture within the society that works for and truly represents all members to the best of its ability within the confines of our new COVID lives.

We need to be kind to each other and respectful. The Board needs to be businesslike and pragmatic but it also needs to be inclusive and above all, beyond reproach, transparent and accountable.

I live in Victoria but I would like to think that I would represent all members across Australia, with an open mind, without prejudice to anecdotal or previous historical issues.

We all need to work together, to be proactive, for this industry to move forward into a stronger future. Call me an optimist, because I am.

I am happy to talk to anyone.
