Archive Sub-Committee Report AGM 2022

Unfortunately, again this year, due to Covid-19 restrictions , the AHSA Board of Directors has been unable to meet physically at the Society office, but the AHSA board has had regular monthly meetings via Zoom, which have allowed us to keep abreast of all current issues and to deal with them as effectively as possible..

For the second year we have been unable to actually go to the society's office to sort through any items, to label or store anything, so things have been fairly dormant for the archive committee.

Hopefully, as we learn to live with Covid, things will get back to what might be a "new normal" and we can attend the office in person to deal with archival items.

Have a look at the History and Archive section on the AHSA website. You will find a brief and very interesting outline of the history of the Arabian horse in Australia, as well as some photos of horses that might be just names way back on your horse's pedigree.

I would like to personally thank Helen and the other lovely ladies in the AHSA office for the tremendous work they do in keeping our society up and running no matter what is thrown at them.

Yvonne Downes
