

Richard Shipton (SA)

The Arabian community know me as ring announcer. Announcing at such a wide range of events keeps me actively in touch with the Arabian horse community. I hear at a grassroots level the issues impacting all members.

I have a diverse professional business background and have been a Business Unit Manager and I am currently a manager of IT and Facilities Unit. I have developed a wide range of financial and business skills, corporate governance understanding and to provide opportunities to grow the business while maintaining critical budgets.

My aim as a Board member has always been and continues to be to ensure that our breed is promoted in a positive light. I have the long-term experience as an active Arabian Horse Society member to promote the Arabian horse to a wider audience and at the same time contribute positively to the day-to-day running of the AHSA Board.

Finally, my passion is for Arabians to still be the horse of choice for our grandchildren and future generations.
