Diaa Kara-ali (NSW)

Diaa Kara-ali is a dedicated international Arabian breeder, owner, and founder of Al Dawla Arabians, which has proudly evolved into Levant Arabians. With over two decades of experience rooted firmly in the Australian equine industry, Diaa has successfully championed Australian-infused bloodlines on the global stage, achieving premium accolades at elite world championships in Paris, Aachen, and Milan.

Deeply committed to governance, international market expansion, and cultural diplomacy, Diaa is an active member of the Syrian Arabian Horse Association (SAHA). Through this administrative platform, he works closely with WAHO to bridge global registration compliance, elevate breeding standards, and support the preservation of purebred lineages.

As a passionate advocate for the performance and functional Arabian horse, Diaa founded the Levantine Arabian Racing Club (LARC) and campaigns a competitive stable under his own registered racing silks.

If elected to the AHSA Board, Diaa will utilise his extensive cross-border network, commercial experience, and passion for both halter and performance disciplines to expand international export pathways for Australian breeders, champion corporate compliance, and elevate the prestige of the Australian Arabian horse worldwide.
